NUMBER 44

GUARD RECRUITING IS URGED IN CAMERON

Tentative assignment of a company of Texas National Guard to Cameron with an Armory provided the city can furnish one, was made some time ago. Based on the need and information that a company of 188 officers and enlisted men would draw annually some \$36,000 has stimulated new interest here.

A statewide public relations and enlistment program, aimed at bringing Texas up to its allotted strength of 30,998 enlisted personnel and officers, was called for today by Lt. Col. William C. Wilkes, Information and Education Officer, Texas National Guard, on his return from a three-day conference at the National Guard Bureau in Washington.

"If Texas is to receive its full share of benefits for the National Guard, as projected in the War Department's plans for overall national defense," Col. Wilkes said, "we must do our share in the National Guard Bureau's program for creating a strong National Guard of the United States. Our part is the actual recruitment of personnel."

"One important consideration is the amount of new money that will be brought into Texas in payroll alone. A single infantry Company of 188 enlisted men will receive approximately \$36,000 annually for one evening of drill each week and 15 days of summer field training. Non-divisional units will receive proportionate amounts. On the basis of full strength, Texas will get at least \$2 1/2 million for National Guard pay alone each year. This is a sum that business men and civic leaders cannot afford to overlook."

100F GRAND WARDEN VISITS LOCAL LODGE

Frank R. Rundell of Austin, Grand Warden of the Oddfellows Grand Lodge of Texas, visited the Cameron lodge on Thursday night.

Mr. Rundell gave a report to the lodge here on progress of the orphanage being built by the lodge at Corsicana.

The Oddfellows in Texas are spending \$300,000 to construct the new home at Corsicana and the local lodge is having a share in this construction program.

Dog Wood Trails In Milam County Being Planned In Cameron

Milam county's dog wood, soon to be in bloom, may soon be accessible to thousands for an annual pilgrimage to their beauties hidden in the timberlands to the east.

Among the advocates is M. G. Cox, president of the Rotary Club, who invited civic leaders to his home Thursday night, for a showing of motion pictures, made by Dr. George Cotton of Temple.

Dr. Cotton, a camera enthusiast, last year made a limited number of motion picture shots of the dog wood. He talked to civic leaders Thursday night following the showing of the pictures.

Dr. Cotton said that the dog wood in Milam county is much more gorgeous than those of East Texas and the blossoms are larger.

Mr. Cox was among the first to discover the dog wood in bloom. Much of it lies east of Gause and east of Cameron along the Pin Oak Creek.

MRS. J. B. MULDROW BURIED IN ROSEBUD

Funeral services for Mrs. J. B. Muldrow who died at the home of her daughter, Mrs. Pearl Eustace in Austin Saturday morning February 22, were held in Rosebud Sunday, February 23.

Mrs. Muldrow was for a number of years a resident of Cameron. Surviving is one son, Arnold Muldrow of Rosebud who is a patient in McCloskey Hospital in Temple.

Funeral services were held from the Methodist church in Rosebud with the Nicholson Funeral Home directing arrangements.

Raymond Hampel of McGregor attended to business in Cameron Tuesday.

1880 Copy Of Leslie Illustrated Weekly Is On Display Here

A 67 year old copy of Frank Leslie's illustrated newspaper has come to the publisher's desk. It is the property of Sam Terry at the Lester Grain Company.

Mr. Terry found the old paper in the family effects some time ago. Leslie's illustrated weekly was to the 1880's what Life magazine is to the 1940's. The illustrations were made by artists and from wood cuts.

The paper is a 16 page tabloid and the size of The Daily Herald. Half of the edition is missing. The type is hand set and 6 point solid, a very fine print. Frank Leslie was one of the great publishers of his era and owned and issued a number of newspapers and magazines.

In a column devoted to news of the week we note that General U. S. Grant "has written another letter expressing his satisfaction with the Republican national ticket." Also that General Miles reports that 800 hostile Sioux Indians have surrendered to him and that 1000 more are enroute for the same purpose.

The publishers of The Herald will bring some additional stories about the contents of this old weekly published in New York.

Income Tax Returns Due In Austin March 15, Scofield Warns

Frank Scofield, Collector of Internal Revenue, cautioned taxpayers today not to confuse pending tax legislation in Congress with the 1946 income tax returns which must be filed not later than March 15 by every person who had \$500 or more income last year.

The Collector pointed out that, if any changes are made in the tax laws, the changes will apply only to 1947, and therefore will not alter in any way the filing of last year's return due by March 15.

For 1946, a return is required by March 15 from every person who had \$500 or more income, regardless of all other circumstances (except, of course, members of the armed forces still overseas). Returns are required even though part or all the tax has been paid by withholding.

Lt. Charles Roy Law On Way To Pacific

Lt. Charles Roy Law, wife and baby daughter arrived in Cameron late Sunday to spend a few days with his parents, Mr. and Mr. Roy Law.

Lt. Law is on his way to the South Pacific and is to be in Hamilton Field in California on March 3 for the trip over. He does not know his destination but will be over there for 30 months.

Lt. Law, a pilot in the Army Air Corps, continued in the service after the close of the war and now has a foreign assignment. Mrs. Law and the baby hope to join him within a few months.

Spelling Penitentiary Baffles Jury So They Cut Verdict Text Short

HAMILTON—A District court jury listened to a forgery case here today and returned this verdict:

"We, the jury, find the defendant guilty and assess his punishment at two years."

"Well, gentlemen," said Judge R. B. Cross, "you should amend the verdict by adding the words 'in the state penitentiary.'"

"We know that ought to be in there, judge," one juror said, "but there wasn't anyone of the jury who knew how to spell penitentiary."

Miss Aetna Smith was a delightful hostess to the Bridge Club last week, at her home. The home was attractively decorated with home grown flowers where a number of games were enjoyed. Mrs. R. D. Brown won high score for members, Mrs. James Watson for guests, and Mrs. Pearl Graves made consolation.

In Japan, the word for umpire means "divine being" or "supreme authority," and each ballplayer, as he enters the batter's box, lifts his cap and bows politely in the umpire's direction.

W. H. Lange of Buckholts visited in Cameron Monday.

GOOD RECORD ENABLES CITY TO KEEP RATES

Fire insurance rates in Cameron will remain the same as in 1946 due to a continuation of a good fire record here, it was announced by John Eanes, fire marshal.

Notification of the continued rate was made by the Department of Insurance in Austin and local fire insurance agents have been told of the development.

The credit of 25 per cent on the rate here results from a good fire record in 1946 and the Cameron Volunteer Fire Department is responsible along with other officials who are charged with keeping down fire hazards and losses.

The losses paid by fire insurance companies in 1946 were reported by Mr. Eanes to be slightly over \$10,000.

The announcement that the city will have a 25 per cent credit for a good fire record does not mean that premiums will be reduced one fourth. What it indicates is that through the years the city has maintained a good fire department and other regulations which resulted in low losses here.

As the result of the good record in 1946 the credit will remain. At the end of 1947 the insurance commission will compute losses here and again will announce rates. It is the duty of the citizen to do all he can to keep down fire losses.

VETERANS OFFICE HERE HANDLED 8793 CASES

With the close of business Wednesday afternoon, February 12, Darwin S. Holton, local Veterans Administration Contact Representative completed one year of service to veterans and their dependents in this area.

During the year Mr. Holton has interviewed 8793 veterans, beneficiaries, dependents, etc. He has averaged 28 contacts per day, six days per week, throughout the year, assisting veterans and others receive the benefits to which they are entitled under ex-servicemen's laws.

The busiest day of the year, according to statistics kept by his secretary, Miss Ann A. Michalka, was on April 23 when 46 veterans visited him in his office in the Hotel Cameron Building for assistance and advice.

It was further stated that educational benefits brought the greatest number of persons to his office. He helped 321 veterans obtain benefits to which they were entitled while going to school and taking on-the-job training. There were even more who made inquiries concerning this type of benefit.

Applications for pensions during the year totaled 79. Some of these veterans did not know that they were entitled to pensions until a study of their cases had been made at the Contact Office. 50 hospital cases were handled, 56 out-patient cases, where local doctors treat service-connected cases, 908 letters have been written for veterans, and a total of 870 applications for benefits of one kind or another were made. In addition to the duties of the local office Mr. Holton serves, on an itinerant basis, veterans living in Hearne, Franklin, and Caldwell.

"It has been a busy, but pleasant year" Mr. Holton commented, and "from indications of recent weeks, it appears that many more veterans will be taking advantage of their rights during the year 1947."

Hanes Is President Elect Rotary Club

W. T. Hanes, superintendent of Cameron schools, was elected President of the Rotary Club Wednesday night in a meeting of new directors at the home of M. G. Cox.

Mr. Hanes will take office in June. Directors named at the meeting Wednesday are: John C. Andres, Bill Burns, W. T. Hanes, Leo Jackson, Henry Siebman and Lester Williams.

M. G. Cox who has been president of the club, will become a member of the Board of Directors automatically. Henry Siebman was elected Secretary and Treasurer to succeed Chas. M. Hicks.

Instead of laying eggs, the fly that causes African sleeping sickness gives birth to one fly.

TRIAL CONCLUDED

\$80,245 IN STATE AID?

PENSIONS REACH HALF MILLION

JOHN WINTERS LOOKS AT FUTURE DEMANDS

Taxes to support Old Age Pensions in Texas will be staggering in 1960 if the ratio of increase of people in the benefit bracket keeps pace with the past.

John Winters, director of the Department of Public Welfare at Austin, here Tuesday as guest speaker before the Lions Club, revealed some interesting facts about the whole field of welfare legislation and funds.

As was so well pointed out three years ago when the people voted a ceiling of 35 million on old age pension money in Texas, it was a short sighted policy. The old people were fooled by the politicians into believing they would get permanent increases. The facts are that with the increasing number of old people who will be eligible, there will be hardly any money at all in 5 years.

Texas industrial workers are badly organized but one of the big problems is that so much of the population is farm. Under social security farmers and those self employed are not eligible.

Only 40 per cent of the working classes in Texas are covered by social security. In the heavily populated industrial areas the coverage is as high as 80 per cent. The old age pension rolls will have to absorb these people in greater numbers in proportion to other states because Texas is low on industrial workers.

Mr. Winters pointed out that in 1900 there were 65,000 Texans 65 years old. Twenty years later the number had increased to 163,000 and in 1940 to 347,000. Mr. Winters said that if this increase is maintained in 1960 there will be 650,000 people 65 years old in Texas who will be eligible for the old age pension.

Mr. Winters revealed that at the present time Milam county eligibles are now receiving a half million dollars a year.

H. B. MCCLELLEN NAMED VET SERVICE OFFICER

H. B. McClellen of Cameron was named County Service Officer to serve war veterans by the Commissioner Court on Thursday.

Mr. McClellen succeeds Jess Thompson of Rockdale in this office. The salary will be about \$2400 per year and Mr. McClellen begins his duties on February 15 and will serve for two years under the appointment.

At the time the office was created the county had no service department to look after the claims of veterans. Since that time the Federal Government through the Veterans Administration in Washington, has established at least two agencies in Cameron.

The Commissioner Court delayed the appointment of a service officer for several weeks and there was some inclination to discontinue the office.

Texas Ex-Students To Meet On March 3rd

For the first time since their annual meetings were interrupted by the late war, former students of the University of Texas will meet in Rockdale on March 3.

Chas. M. Hicks, a graduate of the University, and one of the leaders as County Superintendent, said that letters are being mailed out by Miss Dorothy Matson, secretary from her offices in Rockdale.

Mr. and Mrs. Sherwood Cobb and children of Maysfield visited his parents, Mr. and Mrs. H. J. Cobb and family in Hawkins over the past week end.

NEW SCHOOL MONEY IS IN PROSPECT FOR CITY

Late Wednesday house of Representatives passed the teacher pay bill which was in the form of a per capita apportionment of the common school fund to \$55.

New school money was a little nearer the treasury of the school in Cameron Wednesday as two bills were advanced in the legislature, both having for their main object the increase of teacher salaries.

Under the terms of the projected legislation a minimum pay would be \$2000 a year and there are no conditions of experience. A degree is all that is required. From the \$2000 minimum the salary scale would graduate upward.

The scale of pay would be compulsory in Cameron under the law. There could be no discrimination against teachers as there has been in the past. For the first time in the history of the school in 1946 state aid basis plus 15 per cent was allowed. The new schedule took into consideration, years of experience.

Cameron schools have 1459 students and if the new per capita law is enacted and the money is made available the local schools will get \$80,245 as their share and to this will be added the local tax income.

These additional funds must be used to pay teachers and cannot under the law be diverted to other purposes.

BALLOTS MAILED OUT FOR NAMING C. C. DIRECTORS

Ballots have been mailed out from the Chamber of Commerce for the annual election of directors.

Support of the printing plants was never better illustrated. The ballots are mimeographed and mailed out in envelopes advertising the Cameron Centennial in May 1946.

Request is made that you get your ballot in as quickly as possible so that results can be ascertained and the new directors announced at the banquet to be held on Friday night, March 14.

The Chamber of Commerce is reputed to have some plans but they may not be revealed until the new manager takes over on March 1. For the first time in modern times the Chamber of Commerce, first called the Commercial Club, is to have a trained executive. The idea is a good one and could be developed for major benefits to the city if the Chamber of Commerce Directors can see their way to cut the old raft loose from its ancient moorings and get it on way down stream of progress.

CAMERON SCHOOLS GET 20 HEARNE BUILDINGS

DALLAS (Special), Feb. 25—Cameron public schools have been awarded 20 buildings from the Hearne prisoner of war camp through the non-industrial division of the Dallas regional War Assets Administration's office of real property disposal. Announcement of the award was made by C. N. Townsend, Jr., chief of the institutional branch of WAA.

The 20 buildings were awarded for \$744 after discounts ranging from 80 to 95 per cent had been allowed the Cameron school board in consideration of the structures being used in educational work. Included were barracks, cafeterias, an auditorium and a recreation hall at the camp.

Mrs. Alvin Allday and son, William Alvin of Rockdale visited in Cameron Wednesday.

ARGUMENT STAGE NOW APPROACHED IN CASE

The trial of George Andrews, charged with the fatal shooting of his cousin, Earnest Andrews on October 5, 1946, in district court, came to an abrupt ending here Thursday morning when defense counsel, Camp & Camp, announced that they would not introduce any testimony and were forced to abandon any further proceedings due to the illness of the defendant who collapsed at 10:45 a. m. Wednesday.

Andrews was brought to the court room on a stretcher and was by permission of the court returned to the Newton Memorial Hospital.

The trial ended shortly after Bill Morrison, state's attorney, concluded except for rebuttal testimony.

Judge John Watson started preparing his charge to the jury shortly after he had excused all witnesses. The testimony stage of the trial had ended when the defense announced it could not go on with the case.

The charge of the jury was due to be ready by early afternoon and the next stage of the trial would be argument of the case before the jury.

Homer Reed of San Gabriel, a state witness, called to the stand, testified as to a conversation he had with the defendant, George Andrews, some 3 weeks prior to the fatal shooting. He said that the conversation related to a lease that Earnest Andrews had on land owned by George Andrews. The witness said he expressed the opinion that Earnest Andrews would not move off the place and that George Andrews replied, "I think he will move. Newton will see to it."

Newton Andrews, son of George Andrews, and Earnest Andrews engaged in a fight and from that difficulty Earnest Andrews was slain.

Mrs. Earnest Andrews, widow of the deceased, was placed on the stand briefly by the state as a routine in proof of the death.

George Andrews, on trial here for murder in connection with the fatal shooting of his cousin, Earnest Andrews in Rockdale on October 5, 1946 and who collapsed in the court room at 10:45 a. m. Wednesday was back in court when sessions were resumed at 9 a. m. Thursday.

Andrews was on a stretcher. He was taken to Newton Memorial Hospital following his collapse Wednesday but was brought into court early Thursday. For the second time since the trial began he has been brought into the court on a stretcher.

On motion to continue when the trial began on Monday, February 17 the court held that Andrews was able to stand trial, after two doctors had so testified. He was brought into the court on a stretcher but on February 18 was seated in a chair near his lawyers.

When Andrews came into the court room Wednesday morning he appeared haggard and also ill. Most of the hour and a half before his collapse he sat with his face covered as if weeping. Suddenly he fell from his chair and lay on the floor. Dr. W. R. Newton was summoned and Andrews was taken to the Newton Memorial Hospital where he spent the night.

Early Thursday morning he was brought into court on a stretcher. Shortly after the court resumed session and the state's attorney, Bill Morrison, rested with his case, subject to rebuttal, defense attorneys, through E. A. Camp of Rockdale, announced that due to the condition of the defendant that defense would not put on any evidence. The court's permission was then obtained to return Andrews to the hospital.

The case was thereby closed and defense forfeited its right to put on any testimony. The record of the trial will of course not show that Andrews was unable to go on.

S. P. FARM AGENT TO ADDRESS CC BANQUET

Felix D'Abadie, agricultural agent of the Southern Pacific Railroad, has been invited to make the principal address at the Chamber of Commerce Banquet here on March 14.

Mrs. Minnie Nell Lewis, secretary for the Chamber of Commerce, said the banquet will be held in the basement of the Methodist church.

Mr. D'Abadie is a dirt farmer and was born and reared in central Louisiana. In college he was a fellow in Agricultural Economics at the Louisiana State University.

Before his employment with the Southern Pacific Railroad, he farmed, taught vocational agriculture and was county agent in two counties in Louisiana.

He lives in Houston and has been with the Southern Pacific for about 20 years.

L. T. POTTER

D. A. Hulcy, president of Lone Star Gas Company, has announced the appointment of L. T. Potter of Dallas, to the newly created position of assistant to the president. Mr. Potter has been with Lone Star for more than 18 years, and at the time of his appointment was superintendent of production and assistant general superintendent of the transmission division.

Other changes in the company announced at the same time are the following: Thomas S. Bacon promoted from Research Engineer to Chief Engineer; Richard A. Minter promoted from Office Engineer to Assistant Chief Engineer, and Edgar Allen Brown promoted from Chief Production Engineer to Superintendent of Production.

L. S. Svetlik of Buckholts was in Cameron early this week on business. His son, Adolph Svetlik, member of the Air Corps of the Army is now in Germany. He married a British girl and shortly after re-enlisted in the air corps. The family is looking forward to a visit home of the son and his wife.

Printing is a home industry.

A&M BOARD SUSTAINS ANTI HAZING VERDICT

A&M College board of directors today reaffirmed its intention of banishing hazing—"both physical and mental"—from the campus.

It voted confidence in President Gibb Gilchrist's administration in the face of student demands for his ouster.

A statement issued after a hearing granted seven senior members of the cadet corps, in which they protested that new disciplinary regulations were invoked without consultation with the corps officers, said "the stand taken by the board and the administration in this matter has been endorsed by hundreds of citizens of Texas."

Gilchrist, Dean of Men, J. W. Rollins and Col. Guy S. Meley, Jr., ROTC commandant, a vote of confidence in the handling of the recent disturbance involving 179 members of the senior class in resigning their commissions because of new disciplinary regulations which bar, among other things, the traditional "orderly room service" under which the "upperclassmen" require freshmen to clean up their rooms and do other such duties.

WINTER SNOWS BLANKET EAST WITH DISASTERS

Whether a severe blizzard would sweep as far south as Texas remains a matter of speculation with forecasters Saturday as the weather chart said only cloudiness and moderate temperatures.

It was a vastly different scene in the east as the heaviest snowfall in years blanketed the states and the bitter cold took a toll of 33 lives. On top of the blizzard was as far south as Alabama but out of the path of movements that affect Texas.

The local weather forecast was continued cool and maybe rain, certainly cloudy weather.

In Cameron Friday morning the temperature low was 37 degrees the coldest of the current spell.

Among the chief causes of death was over exertion in shoveling snow. In New Jersey there were 11 deaths and in Pennsylvania 9.

New York the transportation center was gradually re-appearing and trains crawled slowly in the vast metropolitan area of 7 million people. At least 350 schools were closed in greater New York.

The picture was similar from Maine to Virginia. In Virginia, one of the hardest hit states, schools were closed in 28 of 100 counties.

The nation's Capitol wallowed in 7 inches of unaccustomed snow, slowing activities in federal offices and forcing President Truman to forego his usual early morning walk.

TWO SOUGHT FOR ATTACK ON GIRL NEAR BONHAM

An attractive 21-year-old blonde from Mena, Ark., stumbled half naked onto a highway near Bonham today and police are seeking two men she said doped, mistreated and raped her.

The girl's condition today was critical. She was in a Bonham hospital.

Sheriff Dick Wait of Fannin county said the girl told him she had been picked up by two men between Dallas and Greenville yesterday. She said they attacked her later after dopping and choking her.

She said she was "attacked several times during the night."

The men tossed her out of their car near the Bonham state park about four miles from Bonham.

She made her way to a highway where she was found by Josh Thomas about noon. Her clothes were torn from her body and Sheriff Wait said she was badly mutilated.

She said the two men were in an almost new Pontiac four-door sedan. One she said was about 28 and the other about 55. She said one was tall and slender and the other short and chunky. She could give no further identification.

A. N. Green, representative in the legislature, is home for a few days with his family. Statesman Green is a bit weary from the arduous march down the people's path, but on the whole is standing up well under the work at the capital. We hope to have a report on the experiment station soon.

It is estimated that about 60 per cent of the population of the world over 10 years of age cannot read or write.

TESTIMONY BEGINS IN ANDREWS TRIAL HERE

Testimony in the case of George Andrews, on trial in District court for the murder of his cousin, Ernest Andrews in Rockdale on October 5, 1946, got under way when the court resumed session Tuesday morning.

At 7:30 Monday the jury was completed with the selection of Theo Tucker of Jones Prairie and M. C. Adams of Friendship.

At the time of the close of the long quest for jurors in the case some 20 had qualified, Defense counsel, Camp & Camp, exercised fifteen challenges while W. A. Morrison, county attorney, exercised one challenge.

The trial began a week before on February 17 and 7 full days were consumed in the selection of a jury.

The state was prepared to introduce some of its best testimony when court opened Tuesday, but Mr. Morrison indicated he would not be through Tuesday and might rest on Wednesday.

Conclusion of testimony would depend on the cross examination of witnesses. If the bitter fight over a jury is any indication it may take a full week to get all the testimony, in the record.

A large number of witnesses are on hand, some two dozen from out of the county.

Clyde Wilson of Gause was the first witness to testify. He was called by the state.

Andrews, according to the indictment, shot and killed Ernest Andrews his cousin on a business street in Rockdale on October 5, 1946. His son, Newton Andrews, also under indictment for aggravated assault, had engaged in a fight with Ernest Andrews. In the course of the difficulty, Ernest Andrews, is said to have slashed Newton Andrews with a knife and the shooting followed.

George Andrews, the father of Newton Andrews, stood by while the fight was in progress. Ernest was badly beaten and according to information here, asked Newton to quit hitting as he lay on the ground. The fight was renewed a few minutes later and it was then that Newton Andrews was slightly cut with a knife. George Andrews shot Ernest, his cousin who died on the sidewalk.

Through error this newspaper has printed the name of Ernest Andrews as a nephew of George Andrews. They were cousins.

At 11 a. m. only two witnesses had testified, they are Clyde Wilson of Gause and Rollie Lawrence of Austin. Both were at the scene of the shooting and both testified for the state. They said that at the time of the shooting that Newton Andrews was a greater distance away from the deceased than was the defendant, George Andrews.

The court recessed for 10 minutes and resumed the taking of testimony.

RAIN AND CONTINUED COLD IN PROSPECT

Continued cold was the forecast for Cameron and central Texas for Tuesday and night.

Early Tuesday a fresh, new norther beat down on the city and the temperature at 10 a. m. was 30 degrees whereas the low for Tuesday night and early morning was 31 degrees.

Indications were that the temperature here would be hovering around the freezing mark Tuesday night but in North Texas a low of 28 was forecast. At 10 a. m. the low was 28 in the Dallas and Fort Worth areas.

The skies were heavily overcast and some rain was predicted. The clouds here were from an early night snow storm in the north plains and panhandle.

Rain was predicted but nothing heavy, just enough to make the highways dangerous.

L. W. Smith, government observer here, said that the low Tuesday was 31 degrees. The reading at 10 a. m. showed the influence of the new norther and the cold had driven the temperature down one degree.

New Veterans Service Officer Announces Itinerary of County

Effective March 1, I will be in my office in Cameron Thursday, Friday, Saturday and Monday; Rockdale on Tuesday, Thorndale on Wednesday morning and Milano Wednesday afternoon to assist veterans and veteran's dependents who have claims against the government.

All those who have claims are cordially invited to call on me and I will be glad to extend all possible assistance.

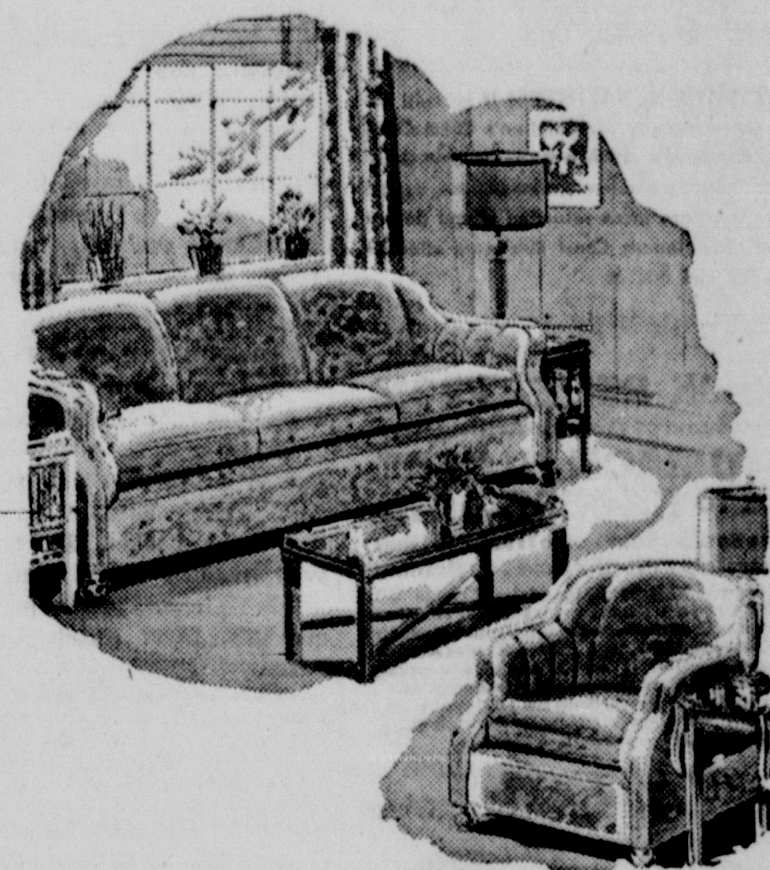

H. B. McCLELLAN,
Veterans County Service Officer.

Mr. and Mrs. Albert Krenk, Jr., are the parents of a daughter born at 5:30 p. m. on February 20 at the Newton Memorial Hospital. The baby weighed 6 and a half pounds. Mr. and Mrs. Krenk live in Cameron.

L. W. Smith of the Community Public Service Company, operating the water works plant, was in A&M College, early this week attending the school for water engineers. This training course is recognized as a

The Ideal Medium

There is no substitute for newspaper advertising.

Your newspaper is not only the ambassador of Good Will in the American Home, it pleads with every issue the advantages in your store or place of business.

How much the average family depends on the local newspaper to tell them what is new and where to buy it, few realize. Only those who have followed for years a consistent policy of using newspaper space can testify to its value.

It is to your business what the coach is to the team.

During the next few months advertising is going to climax in its relation to better business.

Good advertising does not mean price cutting any more than it does a yellow circular thrown on the sidewalk. Proof of newspaper advertising value is a challenge to business men everywhere.

CONSTIPATION

Risky in

BAD COLDS

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

Take CALOTABS

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritis or neuritis pain, try this simple inexpensive home recipe that thousands are using. Get a package of Ru-Ex Compound, a 2 weeks' supply today. Mix it with a quart of water, add the juice of 4 lemons. It's easy, pleasant and no trouble at all. You need only 3 tablespoonfuls two times a day. Often within 48 hours—sometimes overnight—splendid results are obtained. If the pains do not quickly leave and if you do not feel better, Ru-Ex will cost you nothing to try as it is sold by your druggist under an absolute money-back guarantee. Ru-Ex Compound is for sale and recommended by

W. A. Wilkerson And Great Grand Son Are Honored On Birthdays

W. A. Wilkerson of Yarrellton, and his great grand son, Butch Caldwell were honored this week with a surprise birthday dinner. Mr. Wilkerson was 77 years of age and Butch was 4, and was the fourth generation present, for the celebration. The daughter, Mrs. Cora Clement and the grand daughter, Mrs. Florence Caldwell were the other generations represented.

Two large beautiful birthday cakes were presented to the honorees by Mrs. Clifford Lovette of Temple and Mrs. Dud Caldwell of Galveston. A delicious dinner was spread on a long table which was covered in snow white linen.

After the luncheon hour the many beautiful gifts were opened, and pictures were made.

The following relatives were in the group: Mrs. Geneva Lankford, and Mr. and Mrs. Clifford Lovette of Temple, Mrs. Maude Davis of Cameron, Mrs. Nannie Wilkerson, Mr. and Mrs. Jim Clements and daughter, Mary Jo of North Elm, Mr. and Mrs. Dud Caldwell and son Butch, Miss Margaret Clements and Joe Delaney of Galveston, and Miss Bobby Clements of Orange. Gifts were sent by sons who were unable to attend.

Mrs. John Michna is ill from pneumonia at the Newton Memorial Hospital but is recovering rapidly and will be back at her post of duty as superintendent at the hospital. Mrs. Michna, the former Miss Frances Ermis, has been with the hospital since it was founded.

NOTICE

To The Public

All of the land which I own or have rented in Milam County is being and will continue to be poisoned against grasshoppers, other insects, and other pests until March 1, 1947. My land is posted according to the requirements of the law. The poison will be dangerous to depredating livestock (cattle, horses, mules, sheep, goats, and or hogs), and I hereby warn that I will not be responsible for the harm done to any livestock trespassing on my land.

MRS. L. K. SMOOT

\$7295 IS RECEIVED HERE ON THURSDAY

Money from the state government apportioned to scholastics for public school education, continues to mount.

Cameron has received for 1947 use up to Thursday a total of \$30,639 and will receive \$29,180 more. This includes a \$6 per capita carry over from the previous year but will be available for use in the current year.

On Thursday the local schools received \$7,295 which represents \$5 on the apportionment of \$35 per scholastic this year. The carryover will bring the total apportionment to \$41 the highest in the history of the state.

Cameron's share in state money for the current year will be \$59,819. To this amount is to be added the money derived from local taxes. The school income from city taxes is around \$30,000 now since the valuations have been raised. The city's assessed valuation for the current year is \$3,943,000 and the school tax for maintenance is 75c.

If delinquent taxes are being collected the school income for the current year should be around \$100,000. So far as known the school board has never issued a financial statement in modern times. Likewise no publicity is given to the budget.

All this money is used for maintenance of the system. No money is paid out for bonded debts. All bonds voted for school improvements count against the city rate of \$1.50.

The fiscal year for schools is from September to September.

Mr. and Mrs. C. E. Russell of Yarrellton shopped in Cameron on Tuesday.

MILAM IN NEW LINEUP FOR SENATOR DISTRICT

Under the Senatorial Re-districting bill just introduced at Austin a new alignment would place Milam county in with Bell and McLennan for the 13th district now represented by Senator Kyle Vick.

Radical changes are made in the Bell county district, reoriented by Senator Brown.

Sen. Roger Kelley of Edinburg, who introduced the bill, doesn't think it will even resemble its present shape when it gets through the senatorial horse-swapping which will be necessary to pass a redistricting bill.

But for a starting point, here's what would happen to District 21, the seat now occupied by Sen. Buster Brown of Temple:

As it is now, District 21 is made up of Bell, Bosque, Coryell, Erath and Hamilton Counties. In the Kelley bill, District 21 would be made up of South Texas counties, and Bell

would be in District 13, along with McLennan, Coryell and Milam counties. The present District 13, represented by Sen. Kyle Vick of Waco, is made up of McLennan, Falls Lime-stone and Milam Counties.

Bosque and Hamilton, the third and fourth counties in Senator Brown's district, would be transferred to District 12, now represented by Sen. A. B. Crawford of Granbury.

CLUB BOYS PLAN 50 HYBRID CORN EXHIBITS

Approximately 50 hybrid corn demonstrations will be conducted in 1947 by Milam County 4-H club members, according to J. W. Stufflebeme, Jr., County Agent.

The purpose of the program will be to show that hybrids, adapted to Texas conditions, will definitely outyield our native, open-pollinated varieties of corn, and should be planted by as many Milam County farmers as possible.

The Cameron Chamber of Commerce is sponsoring the program, and each 4-H demonstrator will be given, free of charge, enough hybrid seed corn to plant one acre. This corn will be planted along side native corn, and an accurate check in yields will be made.

Plans are to hold a corn show next fall with each boy exhibiting 10 ears of corn. Information on the respective yields will be available, and prizes awarded for the best demonstrations.

There are 2,796 languages in the world and the Chinese language, spoken by 488,000,000 persons, has the greatest number of users.

6 Milam County Boys On Academic Honor Roll At STC College

Six Milam County students have been named on the academic Honor Roll of Southwest Texas State College for the fall semester just completed.

College officials indicate that 311 students, 21.1 per cent of the total enrollment, maintained the average of "B" or above.

The Milam County students are Roy C. Butler, Gause; Wallace Dockall and Royce Dean Jackson of Rockdale; Joyce Wise of Milano; and John B. Dodson and Willard Skelton of

Milano Couple Hold 41st Wedding Date With Dinner At Home

Mr. and Mrs. Tim Woods, Sr., observed their 41st wedding anniversary Sunday, February 16 at their home at Milano with a surprise dinner and a home coming of all their children except two, Mrs. Otto Berndt of Caldwell and Mrs. D. K. Myers of California, and one grand daughter of San Antonio.

The children present were Mr. and Mrs. A. F. McGregor of Cameron, Mr. and Mrs. C. T. McGregor and children of Cameron, Mr. and Mrs. Wesley Woods of Milano, Mr. and Mrs. Rip Woods and family of Cameron, Mr. and Mrs. J. C. Hairston and family of Milano, Mr. and Mrs. Tim Woods, Jr., and son of Bartlett, Mr. and Mrs. H. D. Woods and family of Milano, Mr. and Mrs. W. C. Mathews and children of Milano, Miss Nancy Woods of Waco, and one grand daughter, Mrs. H. Cochran and family of Houston were absent.

A very enjoyable day was spent for these life long residents of Milano. They received many nice gifts.

TRIAL INTERRUPTED AS ANDREWS TO HOSPITAL

George Andrews, on trial in District court here, for murder in connection with the fatal shooting of his cousin, Earnest Andrews, on October 5 in Rockdale, fell from his chair in the court room shortly after the trial was resumed Wednesday morning.

When the court session was resumed at 9:30 Andrews, looking pale and weary, sat with his face covered and appeared to be weeping. The court recessed when Andrews collapsed. He was taken from the court room on a stretcher to Newton Memorial Hospital.

Dr. W. R. Newton was called to court and attended the defendant. It was around 11 a. m. when the dramatic scenes incident to the collapse of the defendant occurred.

The trial, already setting a record for interruptions, might have to be postponed several hours, depending on the condition of the defendant.

John Watson, constable at Rockdale, testified he pushed through the crowd and heard George Andrews say "he cut my boy," and heard 2 shots. Watson saw Earnest Andrews die. He said his face was bruised and bloody, presumably from the fight. He said further that he saw Newton Andrews with blood on his stomach and going in the direction of his father. Watson said George Andrews shot twice, "I saw Earnest Andrews die," said Watson.

On cross question by defense attorneys Watson said he picked up the knife and there was blood on it. He also said that on the previous day that he had taken Earnest Andrews for questioning because of a disturbance at a bus station. He said he did not see the cutting.

A 25 calibre shell from a pistol and a knife, identified by witnesses as the death slug and weapon Earnest Andrews used, were introduced. Ed Gunn, former county attorney testified but his evidence was stricken from the record on the grounds he is not a legal witness.

Herbert Cannon, deputy constable, when questioned by County Attorney Morrison, said he witnessed the fatal shooting. He said that Earnest Andrews was standing with his arms around Newton Andrews with a knife in his hand and he pulled Earnest Andrews away from Newton. He said that at that point George Andrews came up and fired but before he shot Earnest Andrews that the defendant said "I will kill the

The scene at the shooting was reenacted in the court room.

Mrs. Bell Smith of Rockdale, 73 years old, testified she witnessed the affray prior to the shooting, and that Newton Andrews was stamping Earnest Andrews and that the deceased was begging Newton Andrews to quit stamping him and that the deceased's face was bloody and bruised. Mrs. Smith did not see the shooting but after the shots were fired that George Andrews came away from the crowd and said "If he is not dead I will go back and finish him." She said that George Andrews used oaths in connection with his statement.

The trial was then interrupted when the defendant presumably suffered a heart attack.

The African black porcupine charges his enemies by running at them backwards.

SCHOOL BOARD OFFERS TO GIVE CITY OLD SCHOOL

The Cameron School Board has voted the old grammar school building to the city government but in so doing has placed certain restrictions and conditions on the offer.

The Board had previously been asked to give the building but had declined. At that time the then Mayor Chas. C. Smith wanted to make a municipal building of it.

Dr. Clifford Swift, President of the Board, said that the board had agreed to turn over the property to the city if after the matter of improving it has been authorized by the people. A further condition is that the property must not be used for any purpose except strictly municipal purposes.

Mayor A. W. McCullin appeared before the board on last Thursday night to ask for the property. The board agreed with the above conditions.

It was understood the city is now looking into probable costs of converting the building. At one time an estimate of \$30,000 was given.

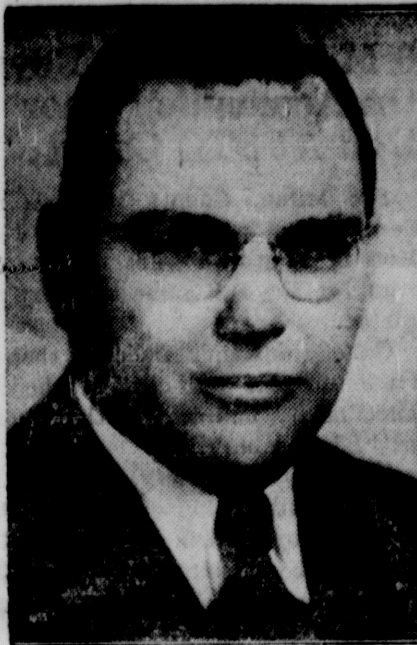

The offer of the School Board, according to Dr. Swift would become effective after it has been demonstrated by vote of the people on a bond issue that they favor converting this building to municipal use.

At present the building serves no public use. It was abandoned by the school board some years ago in favor of a central plant. The building is old and was an Academy at one time, later becoming the property of the School Board and for many years was a high school.

Mr. and Mrs. L. W. Grayson of Beeville visited Mrs. Florence Markham and Mattie Houston over the week end.

Adolph Richter was a business visitor in Cameron Tuesday.

Frank Zarosky Sr. is a patient at Kings Daughter Hospital in Temple.

C. L. CARSON

CARSON NEW MANAGER OF TELEPHONE COMPANY

C. L. Carson, the special representative of the Southwestern Bell Telephone Company at Austin, has been appointed manager of Cameron and six other telephone exchanges in this vicinity. I. W. Davis, district manager of the company, announced this week. The change will become effective March 1.

Mr. Carson will be in charge of all telephone business matters here and at the other exchanges. The new manager will bring to telephone users here the benefit of more than 20 years of telephone experience. His career began in 1926 in Austin as a counter clerk. He later was promoted to chief teller, then to business representative and commercial representative.

In November of 1942, he enlisted in the Army Signal Corps, and was assigned to duty at Randolph Field, San Antonio, and later to the Hurling Army Air Field, to assist in the handling of communication service at those points.

In December 1944, he returned to the telephone company at Austin, and since that time has been handling the telephone service problems of large business customers there.

Carson has taken an active part in civic and community enterprises, being a member and former vice-president of the Austin Junior

Confidence IN TEXAS

In 1912, the Texans who founded Texas Power & Light Company placed their confidence in Texas. Today, the results of this confidence can be seen in the network of more than 12,000 miles of T&L transmission and distribution lines serving 445 cities, towns and communities in a 52-county area of North, Central and East Texas. This was made possible through large investments of private capital for modern generation, transmission and distribution facilities and by the management and operation of these facilities by Texas men and women. The Company today employs more than 2,500 Texans to direct and man this vast Texas public service institution, which provides dependable, low-cost electric service to more than 200,000 customers, including over 68,000 who live on farms and in rural areas.

Pioneer of transmission line electric service in Texas, Texas Power & Light Company since its organization has worked for the balanced development of the state. Its widespread system of power lines provides abundant, dependable electric service when and where it is needed, at rates as low and in many cases lower than those in the highly industrialized and densely populated North and East. The very existence of these power lines has been an important factor in paving the way for the phenomenal industrial development enjoyed in recent years by North, Central and East Texas.

Today finds Texas on the threshold of an even greater era of progress and development. Texas Power & Light Company has kept itself and its resources in good order, always preparing for the increased power needs of tomorrow while supplying the current requirements. We look forward with renewed confidence and anticipation to our share in building the greater Texas of the future!

There's Glory in the Things I Have Seen

By B. F. WIESE

The Sage of Block House Springs

I was born sixteen hundred and thirteen miles southwest of New York City in the deep woods near the old Block House Springs in Milam county.

How much over a half century ago I will leave for all you to guess. I was born in 10 steps of a cotton patch—born in three hundred yards of the old water hole from where we children carried water to do the family washing.

I did not know that money would rattle until I was five years old. My father got hold of two half dollars and showed me how they would rattle. I wore a long tail shirt until I was seven years old, then I was transferred into a pair of home made jeans britches with home made galluses. I wore brass toed shoes and got a stick of striped candy and a bunch of raisins nearly every Christmas.

Back in the days when I grew up our educational advantages were not as good, I am sorry to say, as they are to-day. We usually had from 3 to 5 months school taught by a sturdy handed professor between fifty and seventy years of age who had rather be right than to be pleasant. The first thing I learned when I started to school was that the Professor's hickory hung just over the blackboard. The next thing that I learned was that silence is a mighty good substitute for brains. My studies were usually reading, writing and arithmetic, all whipped into me with a hickory stick.

I know that I have missed many things that city folks—~~claim~~ is essential to happiness but I have heard the grand chorus of hundreds of birds singing in the hills and vales. I have heard the lonely "who are you" of the owl in the deep forest at midnight. I have heard the call of the Whippoorwill at twilight. I have heard the honk of thousands of wild geese on their yearly tour to spend their winter vacation in our sunny Southland. I have heard young mothers sing lullabys to their babies as their eyes glowed with lovelight divine. I have seen the lusty trout leap up in the sunlight to again hide himself in the deep channel of the old Brazos. I have heard the mournful howl of the lonesome coyote break the silence of a midnight's happy dream and I have stopped and watched and heard the hum of millions of bees going and returning to the apiary on their tour of gathering nectar from the wild flowers of the deep, tangled wild wood.

I have seen those who were nearing the silent river sing with quavering voice "we shall meet beyond the river bye and bye".

I have seen hundreds of cattle grazing in the green valleys and I have heard the clanging of their bells coming home at twilight, up the shady trails around the old rail fence where the scent of wild flowers hung heavy. I have heard the voices of the hunter's dogs give the music of a thousand tuscan harps in their wild efforts to catch Renard as he stealthily and silently treaded the paths of sleepy hollow. I have heard the sound of their horns give signal that the hunt was over and I have seen them returning home at day break quite fatigued but ever ready for the second affray.

Down by the orchard on the old fence at high noon on a sultry June day I've heard the call "Bob White" I've seen the sun set behind great banks of silver lined thunder clouds, all of these and many more of nature's beauties have I seen, carved and painted by the hand of the Almighty Divine.

Vance Brock Enters Business; Buys Store And Service Station

Vance Brock has entered business by purchasing the grocery and service station on Highway 77 north of the main business section.

Mr. Brock purchased this business from C. M. Conner and has been operating the store for about one week. He reports a nice business and for the convenience of the trade is keeping the store and service station open every day including Sunday.

Mr. Brock was reared here and is well known and his many friends will be glad to know he has purchased this store.

Guests in the home of W. C. Allen this past week end were his parents, Mr. and Mrs. J. R. Allen and Mrs. Jeanie Jones and husband of Houston also his sister, Miss Jewel Allen of Dallas.

27 DEGREES HERE BRINGS FREEZE SUNDAY NIGHT

A low of 27 degrees was registered here Sunday night as the sneak norther sent temperatures down and prospects were that the cold would continue through Monday.

Forecasts early Monday said that clear weather would prevail and temperatures would get below freezing in north Texas Monday night.

There was no government estimate on what local temperatures might be but around freezing would be a good guess.

The current norther began there early Saturday night. The north winds increased to almost gale proportions by late Sunday by receding during the night and although they resumed at a less tempo Monday morning, the norther was due to continue through the day. A heavy frost occurred Saturday night and again Sunday night.

The quick freeze was unexpected and was due to a fast movement of cold air that got by the pressure area and came in with a rush and without warning.

One of the major benefits of the continued cold will be the retarding of fruit trees for warm weather at this season always endangers fruit

Bert Solves the Labor Problem

You hear a lot about capital and labor nowadays, as if the two could never get together. But look at Bert Childers—who has 320 acres of producing land, a fair-sized herd of cattle, and two farm hands working for him.

If you called Bert a "capitalist" he wouldn't know what you meant, and neither would Spike and Sandy, the hired men. Bert works side by side with both of them; and in the evenings they sit around the fire together—sharing a friendly glass of beer or two.

Lucian Kruse To Take Intercollegiate Rodeo Part In Arizona

Five Texas A&M College students will participate in the seventh annual intercollegiate rodeo at the University of Arizona March 15-16 at the Tucson rodeo grounds. The group was chosen by the Saddle and Sirolo club in a recent meeting.

The contestants are: Walter G. Lindley, Mertzon; Loyd E. Griffith, Dallas; James R. Day, Batesville; William L. Kruse, Cameron; and John C. Eckert, Art. Coleman, A. O'Brien of the A&M animal husbandry department will go with the group to the rodeo.

Highlight of the "Go Western Rodeo Week", March 10-16, is selection of the most beautiful coed cowgirl to reign over the activities as rodeo queen. Each girls' hall and sorority competes by selecting its most eligible candidate.

In addition to the two main arena shows, the festivities of the week include a street dance and all-student square dance on March 14-15, and all-school cowboy assembly, and several cowboy contests.

The rodeo program includes events scheduled for coeds in bronc cow pony race, boot and cigar race, potato race, and bareback wrestling. The men will compete in bareback bronc riding, wildsteer scramble, steer riding, calf roping, team tying, wild cow milking, pony express race, and wild mule race. There is also a mixed team roping event.

Invitations to the intercollegiate rodeo have been sent to 46 colleges and universities throughout the west and middlewest by the University of Arizona.

Yarrellton News

Miss Wanda Rae McDonald of Houston spent the week end with her parents, Mr. and Mrs. W. C. McDonald.

Mr. and Mrs. John McDonald and Mrs. Bud McDonald were Sunday visitors in the W. C. McDonald home. Rodney Barker and Buster Griffin are on the Grand Jury this week.

New Maytag Range Is On Display Here At Hefley-Stedman Co.

The new Maytag Dutch Oven Gas Range has arrived in the city and is on display at the Hefley-Stedman Company, dealers at their store at 118 North Central Avenue.

Hugh F. Smith, manager of the new store which features farm equipment as well as home appliance, said the new range has long been awaited by the store and by prospective buyers as well.

Increases in production are encouraging and the store believes that deliveries will be fairly rapid.

The stove is a new version of post war home appliances and combines all the ultra modern features. It is represented as "the wife saver." Mr. Smith invites the housewives of this territory to see the new Maytag stove.

John W. Hairston, county treasurer, is ill and apatient in the Newton Memorial Hospital. Mr. Hairston has recovered from an attack of pneumonia only to face other complications but Friday was reported resting better and hopes to be out in a few days. He took the oath of office on January 1, 1947.

Louis Vanza was a business visitor in Cameron recently.

M. G. Cox who produces Camelia Japonicas at his home, has given a fine specimen to The Herald. These flowers bloom in winter. They are rare and originally were known in China. They grow well in southern climates.

It is estimated that malaria strikes 300,000,000 persons throughout the world every year (the United States often has 4,000,000 cases a year).

No Rabbits
